### 3.75(c)(2) REPEAT

#### HOUSING FACILITIES, GENERAL.

There are some areas on the floors in the primary enclosures for the male gorilla - trailers X and Y - where there is chipping and missing paint, especially around the toilets.

All surfaces must be maintained and/or replaced on a regular basis in order to facilitate adequate cleaning. Failure to maintain and/or replace surfaces can impede cleaning, which may create unsanitary conditions.

This inspection was conducted with facility representatives. An exit interview was conducted on 9/25/18 by phone, with the licensee.
