Type: ROUTINE INSPECTION
Date: 08-FEB-2024

2.40(b)(2)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

Approximately a month ago, "Sequoia", a male hedgehog born on 8/18/21 had some kind of injury to it's right eye. The licensee reported the hedgehog had it's eye crusted shut with dried up blood. The abnormal eye has a whitish/pinkish color to it. The licensee did not contact the Attending Veterinarian. Eye injuries can be painful. If the eye was infected, the infection could lead to further problems. Not contacting the Attending Veterinarian doesn't ensure the animal is receiving adequate veterinary care. The licensee must contact the Attending Veterinarian and follow whatever treatment plan is given for the hedgehog. Correct by 2/9/24.

This inspection and exit interview were conducted with the licensee.

End of report.
