JANE BETHARDS

Type: ROUTINE INSPECTION
Date: 28-DEC-2020

2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

* No written program of veterinary care was available at the time of inspection. The written program of veterinary care is required for facilities which do not employ a full-time veterinarian. The program of veterinary care is a written agreement between the licensee and the attending veterinarian. Formal arrangements shall include regularly scheduled visits to the premise of the licensee. The program of veterinarian care establishes standards of care for the animals. A completed written program of veterinary care is important for the care of the animals and ensures clear and accurate communication between the facility and the attending vet. The licensee must have a completed program of veterinary care available for review during inspections. To be corrected by 1/11/21

3.127(b)

Facilities, outdoor.

* No sheltered structure was observed for three adult reindeer being housed in an outdoor enclosure. Adequate housing is necessary to ensure the health and well-being of the reindeer and to provide protection from the elements. The licensee must ensure that sheltered housing is accessible to every reindeer housed outdoors at all times. Correct by 1/4/21
