Certificate: **63-C-0212**
Site: 001
JAMES MC CULLEY

Type: ROUTINE INSPECTION
Date: 28-OCT-2016

2.40(b)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

One adult sheep and one male goat are in need of feet trimming services. The animals hooves are overgrown in length and are starting to curve. No limping was noted today but the long/misshapen hooves can lead to pain while walking and to joint damage if not addressed. The facility shall have someone knowledgeable in feet trimming check all sheep and goats and have the hooves trimmed if overgrown. Correct by Nov. 15, 2016.

3.130

WATERING.

The water trough for the goats/sheep/cow has green growth along the sides and bottom. The water appears clear. The trough needs to be cleaned and scrubbed prior to being refilled. The animals may elect not to drink water that is contaminated or may become ill. The water receptacles need to be kept clean and sanitary. Correct by Oct. 30, 2016.

Exit interview were conducted with undersigned facility representative.
