### 2.75(b)(1)

#### Records: Dealers and exhibitors.

There were no records of acquisition or record of animals on hand available at the time of the inspection for the 3 Ringneck Doves that are on the premises.

Per this Section of the Regulations, exhibitors shall make and maintain complete records regarding the details of the acquisition and disposition of animals in their possession in order to account for all animal transfers and the sources of the animals. Corrected at the time of the inspection 1/25/24 by adding the acquisition information for the doves to the record of animals on hand. To remain corrected from 1/25/24 by ensuring that the animal records are kept current for all future animal acquisitions and/or dispositions.

### 3.154

#### Environment enhancement to promote psychological well-being.

Although the Doves at the facility were socially housed and were provided with materials to enhance their environment, a written plan for environmental enhancement to promote the psychological well-being of the birds had not been developed and was not available for review at the time of the inspection.

Per this Section, exhibitors must develop, document, and follow a species-appropriate plan for environment enhancement to promote the psychological well-being of birds. The plan must be approved by the Attending Veterinarian and must be in accordance with currently accepted professional standards as cited in appropriate professional journals or reference guides. At a minimum, the plan must address each of the following: social grouping, environmental enrichment, special considerations, restraint devices, and exemptions. The Licensee needs to develop an environmental enrichment plan appropriate for the species of birds maintained and the plan must be approved by the Attending Veterinarian. Correct by 3/1/24

This inspection and exit briefing were conducted both on-site and by phone with facility representatives.
