Type: ROUTINE INSPECTION
Date: 05-APR-2023

2.75(b)(1)

Records: Dealers and exhibitors.

The facility has not kept their record of animals on hand (acquisitions and dispositions) up to date. The records kept do not fully disclose the required information about hedgehogs purchased and disposed of by the facility. Some of the hedgehogs present at the facility during the last inspection are no longer physically present but the record still indicates that they are present. In order to allow for medical and legal tracing, records must be complete and correct. Records shall reflect the name and address of the person from whom animals were acquired, their USDA license/registration number or their Driver's license number and vehicle tag if not, the name and address of the person to whom an animal was sold/given, the date of acquisition or disposition, the species and number of animals in the shipment. Correct by 4/10/23.

This inspection and exit interview were conducted with the licensee.
