Cougar Mountain Zoological Park  
19525 Se 54th Street  
Issaquah, WA 98027

Customer ID: 3430

Certificate: 91-C-0033

Site: 001

COUGAR MOUNTIAN ZOOLOGICAL PARK

Type: ROUTINE INSPECTION

Date: 20-NOV-2015

### 2.40(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Two reindeer ("Wishes" - 14 years old and "Cinnamon" - 12 years old) were observed with overgrown hooves. Over long toes may alter the animal's gait and put undue stress on tendons and joint structures. In addition, the bottom incisors of one alpaca ("Biff" - 16 years old) were overgrown and protruding beyond the upper lip. Overgrown teeth can lead to dental problems such as malocclusion, cause difficulty with prehension of food or chewing and result in weight loss or poor body condition. The licensee must correct these issues to ensure an appropriate program is maintained for all aspects of animal care. The facility staff has contacted the attending veterinarian, and plans have been made for correction by November 25, 2015.

### 2.131(d)(2)

#### HANDLING OF ANIMALS.

Visitors were observed hand feeding alpaca through the fencing without an attendant present. Public contact could result in harm to the animals or be detrimental to their health and well-being. A responsible, knowledgeable, and readily identifiable employee or attendant must be present at all times during periods of public contact. Corrected immediately by the facility.

This was a focused inspection.

An exit interview was conducted with the facility representatives, Carolyn McKinnie, Supervisory Animal Care Specialist, and Diane Forbes, VMO.
