Certificate: **58-T-0126**
Site: MIA
TAMPA CARGO

Type: FOCUSED INSPECTION
Date: 05-OCT-2016

2.26 REPEAT

ACKNOWLEDGMENT OF REGULATIONS AND STANDARDS.

Twelve puppies younger than six months old were imported from Colombia without documentation and/or justification showing animals were intended for research or veterinary treatment. Under USDA rules, you cannot import a dog younger than 6 months old into the United States for resale or adoption and must have a justification to import them at that age for research or veterinary treatment. All dogs imported for any of those purposes must have a valid vaccination against rabies, have certain other vaccinations, a veterinary health certificate and not show signs of disease on import. The registrant must only import puppies of proper age by following USDA rules.

Correct by: October 5, 2016

3.17(c) CRITICAL

CARE IN TRANSIT.

At the time of inspection, five French Bulldog puppies (approximately three months of age) were found to be in distress and in need of immediate veterinary care. The carrier must determine whether any of the dogs are in obvious physical distress, and arrange for any needed veterinary care as soon as possible. If a dog is obviously ill, injured, or in physical distress, the carrier must ensure the animal (s) not be transported in commerce, except to receive veterinary care for the condition. Before the conclusion of this inspection, the carrier proactively arranged for immediate veterinary medical care by contracting services with a local veterinary clinic.

Correct by: Corrected at the time of inspection.

Additional inspectors: Dr. Megan Sisson, USDA-VS, Ms. Emily Davenport, CDC and Officer Angel Menes, CBP

This inspection and exit interview were conducted with Ms. Diana Gutierrez, Head of Cargo Operations.
