Type: ROUTINE INSPECTION
Date: 14-JUL-2015

3.1(e)

HOUSING FACILITIES, GENERAL.

*** Chemicals, tools, and other miscellaneous supplies are being stored on top of enclosures in both the whelping and adult areas. Chemicals or tools falling into the enclosures below could injure the dogs or cause harm from them ingesting the chemicals. Correct this by ensuring all chemicals, tools, and other items are not stored on top of primary enclosures. These items must be properly stored utilizing cabinets or shelving.

Correct by: 16 July 2015

3.11(d)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

Rodent droppings were found in a plastic bin stored on top of the primary enclosures in the adult dog area. Rodent feces can be a source of disease in animals. An effective pest control program needs to be established and maintained to prevent mammalian pest activity within the dog areas. Correct this by establishing a program to control these pests.

Correct by: 24 July 2015

**Inspection and exit interview conducted with the licensee, Randy Coleman, ACI, and Mary Ann McBride, VMO.

Additional Inspectors

McBride Mary Ann, Veterinary Medical Officer
