Type: ROUTINE INSPECTION
Date: 10-APR-2014

3.26(d)

FACILITIES, INDOOR.

Interior surfaces. The back door in the guinea pig room has peeling paint and unsealed wood. Unsealed wood in animal rooms can become wet providing an optimal area for growth of bacteria and mold which can cause animals to become ill. The back door must be resealed or replaced so that the surface is impervious to moisture to allow it to be repeatedly cleaned and sanitized.

Correct by June 1, 2014

An exit briefing was conducted with owner.
