Hattiesburg, MS 39402

Customer ID: **6017153**

Certificate: **65-C-0578**

Site: 001

Triple R Farms Hattiesburg, LLC  
Carmen & Miles Smith

Type: RE-LICENSE INSPECTION

Date: 18-JUL-2023

---

### 3.78(d)

#### Outdoor housing facilities.

The outdoor enclosure housing two adult common marmosets is not completely enclosed by a perimeter fence. A perimeter fence is important for preventing unauthorized people and animals from having contact with the nonhuman primates, and acts as a secondary containment system if an animal escapes. Correct by ensuring that all outdoor non-human primate enclosures are within a perimeter fence that is at least 6-feet tall and 3-feet away from the animal enclosures.

### 3.81

#### Environment enhancement to promote psychological well-being.

An environmental enrichment plan was not documented for the nonhuman primates at the facility (2 adult common marmosets). Nonhuman primates have many complex social and environmental needs. Failure to provide opportunities for social and environmental activities may result in boredom, stress, inactivity, weight gain, and may contribute to the development of abnormal or harmful behaviors. Correct by documenting an enrichment plan for nonhuman primates at the facility which addresses social and environmental enrichment for the nonhuman primates. The plan must also be approved by the attending veterinarian.

### 3.127(d)

#### Facilities, outdoor.

Enclosures housing various exotic animals including otter, kangaroo, and porcupine are not entirely enclosed by a perimeter fence. A perimeter fence is important for preventing unauthorized people or animals from having contact with the exotic animals, and acts as a secondary containment system if an animal escapes. Correct by ensuring that all outdoor exotic animal enclosures are within a perimeter fence that is at least 6-feet tall and 3-feet away from the animal enclosures.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.
