Customer ID: **5620**

Certificate: **42-C-0103**

Site: 001

Clayton County Conservation  
Board

Type: ROUTINE INSPECTION

Date: 06-MAY-2025

---

### 3.153(a)(1)(iii) Critical

#### Primary enclosures.

In July 2024 one of the facility's adult turkeys was found deceased outside of its primary enclosure. The licensee stated that the turkeys have their wings clipped regularly and they are unsure how the turkey was able to get out of the enclosure.

Primary enclosures must be constructed and maintained so that they contain the birds securely so that they have access to food, water, and shelter and to prevent attack by predators.

The facility has corrected by making improvements to the turkey enclosure and adjusting the frequency of wing clipping. Corrected prior to inspection conducted on 06 May 2025

This inspection and exit interview were conducted with a facility representative.
