3.125(d)

FACILITIES, GENERAL.

Throughout the animal compound and in animal areas there is various debris laying on the ground. Items such as old fencing material, plastic bottles and baling twine needs to be picked up and disposed of properly. Leaving these items where the animals could ingest them or get tangled up in them could cause harm to the animal. Provision shall be made for the removal and disposal of trash and debris.

Correct by: 08-21-14.

3.127(b)

FACILITIES, OUTDOOR.

The two pigs have a sheet of wood that affords them protection from the sun but no other shelter to protect them from driving rain or cooler temperatures. A shelter needs to be provided for the pigs. Shelter shall be provided for all animals kept outdoors to afford them protection and to prevent discomfort to such animals.

The wire mesh roof of the pig enclosure is weighed down by tree debris and one corner has broken loose from the support post. The debris needs to be removed and the roof made structurally sound to protect the pigs from limbs and twigs falling into the shelter and possibly on them.

Correct by: 08-22-14.

An exit briefing was conducted with the Owner.
