MERRYMEAD FARM ASSOCIATES LLP

Type: ROUTINE INSPECTION

Date: 20-MAY-2014

3.131(c)

SANITATION.

Section 3.131(c) Housekeeping: The interior surfaces of the two white plastic public feeding tubes for the enclosure housing four goats and two sheep have an accumulation of dirt and food residue. The dirt and food residue may provide an area for the growth of bacteria and/or mold. The food fed by the public through the tubes may become contaminated and cause the animals to become ill. The inside of the feeding tubes must be kept clean to protect the health of the animals.

Correct by May 22, 2014.

An exit briefing was conducted with the facility manager.
