2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

There is a written program of veterinary care but the licensee states the attending veterinarian has changed since it was written. The licensee states the change was made about four of five years ago and that they likely have an updated version but it could not be located for inspection. Licensees with a part-time or consultant veterinarian must have formal arrangements with an attending veterinarian to include a written program of veterinary care in order to ensure adequate veterinary care at the facility. The owner needs to locate the current program of veterinary care or develop a new program of veterinary care with the current attending veterinarian. An updated and accurate program of veterinary care needs to be available for inspection upon request.

2.75(b)(1)

RECORDS: DEALERS AND EXHIBITORS.

Records of animals on hand, acquisition and disposition were not available at the time of inspection. Complete and accurate animal records must be kept in order to facilitate tracking and/or tracing of animals. Records must be made, kept and maintained that fully and correctly disclose information concerning all animals purchased or otherwise acquired, owned, held, leased, transported, sold, euthanized or otherwise disposed of and shall include any offspring born while in the licensees possession.
