#### Sanitation.

The primary enclosures, for the one rabbit housed in the barn and the 3 rabbits housed outdoors, had a significant accumulation of feces on the floors. Some had been frozen to the floor of the outdoor enclosures, due to the weather. Excreta shall be removed from primary enclosures on a more frequent basis to prevent accumulations and contamination of the rabbits housed there in.

Primary enclosures shall be kept reasonably free of excreta, hair, cobwebs and other debris by periodic cleaning.
