3.158(c)

Cleaning, sanitization, housekeeping, and pest control.

There is an accumulation of caging material, plastic containers, a plastic shed, gardening tools, a screen, and some discarded items stored around animal enclosures and surrounding animal areas. A couple of these items are also on top of 2 enclosures. Piles and/or stacks of unused items can create breeding and living areas for rodents, pests, and vermin. Premises where housing facilities are located, including buildings, surrounding grounds, must be kept clean and in good repair in order to protect the birds from injury and disease, to facilitate the husbandry practices required in this subpart. Premises must be kept free of accumulations of trash, junk, waste products, and discarded matter, for the health and well-being of the birds.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspection(s) or by December 19, 2023, or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.
