### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The facility has not employed an attending veterinarian under formal arrangements, and there is no written program of veterinary care. Each exhibitor shall employ an attending veterinarian under formal arrangements, to include a written program of veterinary care in the case of part-time or consulting arrangements with the attending veterinarian.

### 2.75(a)(2)

#### RECORDS: DEALERS AND EXHIBITORS.

There was no Record of Acquisition and Dogs and Cats on Hand available for the inspector to review at the time of pre-license inspection. Exhibitors shall use Record of Acquisition and Dogs and Cats on Hand (APHIS Form 7005) to make, keep, and maintain the required information described in 2.75(a)(1).

### 3.6(a)(1)

#### PRIMARY ENCLOSURES.

There is a bank of light switches on the left wall at the rear of the main floor of the building. This room serves as the primary enclosure for all animals. The plastic electrical faceplates of two of these switches are broken, resulting in approximately 2"-3" holes in the wall through which wiring can be seen. The cats have unrestricted access to the area with the damaged fixtures. Animals could be injured by coming in contact with electrical wiring. Primary enclosures for dogs and cats must be kept in good repair.

All items must be in compliance within 2 more inspections or by November 20th, 2018, or the applicant will forfeit the application fee and must wait 6 months to reapply. CONDUCTING REGULATED ACTIVITIES WITHOUT A VALID USDA LICENSE IS A VIOLATION OF THE ANIMAL WELFARE ACT.

This pre-license inspection and exit interview were conducted on site with the facility owner.
