Type: ROUTINE INSPECTION
Date: 08-JAN-2021

2.75(b)(1)

Records: Dealers and exhibitors.

Records of guinea pigs on hand is only being done monthly for weanlings, and not for adults and newborns. Record of deaths is only being kept monthly. Failure to keep complete records can make it difficult to assess the health of the colony by identifying animal losses by death or decreased number of animals born , and to track guinea pigs being used for regulated activities to ensure their humane care and use. The facility must maintain records containing the required information for animals which fully and correctly disclose the number of guinea pigs held, owned, acquired, and disposed of including births and deaths. Correct by January 12, 2021.

This inspection was conducted with the owner's sons and exit interview was conducted with the licensee.
