Site: 001

MEDICAL COLLEGE OF WI

Type: ROUTINE INSPECTION

Date: 15-MAR-2023

2.31(e)(2)

Institutional Animal Care and Use Committee (IACUC).

**During a review of a guinea pig protocol the following was noted regarding the justification for the species and use of the animals. The protocol indicated the rationale and appropriate species to be used would include specific characteristics that make the best choice for utilizing the animals, however, the description of the rationale and species chosen was vague. The description of why the animals were utilized was not clearly defined in the protocol. The rationale for use and species utilized needs to be clearly defined in order for the IACUC to have a clear understanding of the rationale and species to be used for the proposed animal activity. It is the responsibility of the IACUC to review proposed animal activities in order to ensure adherence to the requirements as set forth in this section.

Correct by: March 31, 2023

This inspection and exit interview were conducted with the attending veterinarian and facility representatives.

Additional Inspectors:

DAWN BARKSDALE, VETERINARY MEDICAL OFFICER
