Site: 001
CHRIST S BEILER

Type: ROUTINE INSPECTION
Date: 07-MAY-2021

3.31(b) Repeat

Sanitation.

Housekeeping. There is still a buildup of cobwebs, dust, dirt and debris on windows, window ledges, empty enclosures, and supports in the animal room. Animal facilities must be kept clean to ensure good quality of the air for the animals and to prevent unnecessary disease risks. Ineffective cleaning and housekeeping can expose the guinea pigs to disease risks and health problems. Correct by keeping the premises clean, including: removing the buildup of dust, dirt, cobwebs, and debris; routinely dusting off and cleaning surfaces in the animal room; and maintaining a level of general cleanliness to support good animal husbandry and health.

Remains uncorrected.

This inspection and exit interview were conducted with the licensee.
