2.40(a)(1)

Attending veterinarian and adequate veterinary care (dealers and exhibitors).

The attending veterinarian's site visits have not been performed at the frequency approved in the written Program of Veterinary Care. The current Program of Veterinary Care states the attending veterinarian will have regularly scheduled visits at a minimum of once every year. The last veterinary visit to the facility, per facility representatives, was on December 4, 2023, thus over a year and a half without the attending veterinarian's facility review. Although birds were taken to the veterinarian's office during that time, a premise visit is still required. Not following the prescribed frequency of regularly scheduled veterinary premises visits can lead to an inadequate standard of veterinary care for the animals. The licensee shall ensure the correct frequency of regularly scheduled attending veterinarian visits occurs as prescribed in the written Program of Veterinary Care.
Correct by: 10/1/2025.

This inspection and exit interview were conducted with facility representatives.
