Date: 03-JUN-2015

3.1(c)(3)

HOUSING FACILITIES, GENERAL.

Cleaning

There are three enclosures in a sheltered facility, affecting 2 adult dogs, that have an accumulation of bedding, fecal material and other organic material on the inside floor, and wall area. An unoccupied enclosure, adjacent to an occupied enclosure, has a carpet remnant with old feces on it. These areas can become a disease hazard to the animals and need to be cleaned. The licensee must clean and sanitize the affected enclosures and ensure that all hard surfaces with which the dogs come into contact with are spot cleaned daily and sanitized at least once every two weeks or more often if necessary and all other areas of the housing facility are cleaned as often as necessary to satisfy generally accepted husbandry practices.

To be corrected by: 5 June 15

3.4(b)(2)

OUTDOOR HOUSING FACILITIES.

Shade

In an outdoor enclosure, housing 1 adult dog, there is insufficient shade area provided. Exposure to the direct rays of the sun can cause discomfort to the dog and may lead to heat related illnesses. The licensee must provide this dog with a shade structure so that he can escape the direct rays of the sun. The licensee must ensure that all dogs are provided with a shade structure to protect them from the direct rays of the sun at all times.

To be corrected by: 5 June 15

Inspection and a verbal exit interview was conducted with the licensee and ACI Stephanie Osborne.
