Site: 001

GREATER TENNESSEE VALLEY ZOO INC

Type: ROUTINE INSPECTION
Date: 02-JUN-2015

3.125(a)

FACILITIES, GENERAL.

** The fencing containing the llama, alpaca, goats and sheep have been bent down in several areas. The animals are leaning on the fencing causing them to hang and fold down. The fencing shall be constructed to properly contain the animals within. The fence shall be repaired and/or replaced. Correct by June 14, 2015.

** The wallaby's wood siding has been chewed up and needs to be replaced and/or repaired. There is also pieces of tarp for insulation that are hanging off of the wallaby's wall that have been torn down by birds from nesting. This needs to be removed. The enclosure shall be maintained in good repair to protect the animals from injury. Correct by June 11, 2015

** The porcupine's enclosure was very wet. The logs in the center of the enclosure was covered in a green slimy substance. The owner stated that there was a leak in the roof of the enclosure. The roof needs to be repaired and/or replaced. The primary enclosure shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals. Correct by June 11, 2015

3.131(a)

SANITATION.

** The prairie dogs had an excessive amount of feces and other debris throughout their primary enclosure. Excreta shall be removed from the primary enclosures as often as necessary to prevent contamination of the animals contained therein and to minimize disease hazards and to reduce odors. Correct by June 6, 2015

3.131(c)

SANITATION.

** There was an excessive amount of clutter throughout the facility. Around and on top of the prairie dogs enclosure there was trash and other discarded items. The grounds and close proximity to the animals shall be kept clean and free of trash accumulation. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals. Correct by June 10, 2015
