Derrick Verdun Rosaire Ross  
Frederick Ivor Rosaire Ross  
Kay Pittenger Ross  
6175 279th Street East  
Myakka City, FL 34251

Customer ID: **323980**

Certificate: **58-C-1065**

Site: 001

DERRICK, FREDERICK & KAY ROSS

Type: ROUTINE INSPECTION

Date: 22-JAN-2015

### 3.125(a)

#### FACILITIES, GENERAL.

The wire that was previously used as hot wire has become detached from the fencing that divides the the bear enclosure. This loose wire is in the bear pool and near the bottom of the fencing near the bear enclosure. This loose wire could become entangled with the bears. The bears are digging under the chain link fence which could get their body parts caught between the sharp edges of the fence and the ground. The outdoor housing facilities need be maintained in good repair to protect the animals from injury.

TO BE CORRECTED BY: JANUARY 26, 2015.

The steel outdoor enclosure housing the bears has numerous rusted areas and holes at the rear walls and ceiling. There is paint peeling from the the ceiling and the walls of this rusted enclosure. These rusted areas must be repaired or replaced with new material. The outdoor housing facilities is structurally sound, however it must be maintained in good repair to protect the animals health and welfare.

TO BE CORRECTED BY: FEBRUARY 24, 2015.

### 3.127(b)

#### FACILITIES, OUTDOOR.

The wire that was previously used as hot wire has become detached from the fencing that divides the the bear enclosure. This loose wire is in the bear pool and near the bottom of the fencing near the bear enclosure. This loose wire could become entangled with the bears. The bears are digging under the chain link fence which could get their body parts caught between the sharp edges of the fence and the ground. The outdoor housing facilities need be maintained in good repair to protect the animals from injury.
