

## Inspection Report

Stuhr Museum Of The Prairie Pioneer  
3133 W. Hwy 34  
Grand Island, NE 68801

Customer ID: **21144**

Certificate: **47-C-0043**

Site: 001

Stuhr Museum of the Prairie Pioneer

Type: ROUTINE INSPECTION

Date: 13-MAY-2014

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The licensee has an attending veterinarian and a written Program of Veterinary Care (PVC). However, the written PVC is incomplete. Under the section " Ectoparasites," the PVC states "as needed." Under the section for internal parasites, the PVC states " in feed." There are no types of drugs or methods, dosage, route of administration, frequency, or concentration listed on the PVC for these routine treatments. In addition, in the section marked " Euthanasia," the non-emergency method states " deliver IV," but no drug or dosage is listed. A clear, complete PVC is important for proper understanding between the animal caretakers and the attending veterinarian to ensure medical treatments are administered accurately and with the direction and knowledge of the attending veterinarian. The licensee must ensure that the PVC be filled in completely and accurately. To be corrected by: June 13, 2014.

The inspection and exit interview were conducted with the facility manager.
