

Inspection Report

S. E. Marley
20831 Brandt Road
Tonganoxie, KS 66086

Customer ID: **38292**
Certificate: **48-A-2116**
Site: 001
S. E. Marley

Type: ROUTINE INSPECTION
Date: 06-MAR-2014

2.40(b)(2) REPEAT

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

* The written program of veterinary care had incomplete information pertaining to the parasite control at the facility. The sections pertaining to ectoparasites, blood parasites and intestinal parasites had the words "as needed" listed in this section. In addition, the section pertaining to euthanasia had the words "injectable" listed in this section. When "as needed" is listed under the frequency of sampling or treatment the licensee is providing the capybaras or "injectable" under the methods of euthanasia, this is not considered to be adequate veterinary care. The licensee, in coordination with the attending veterinarian, must provide more specific information on the type of products used at the facility and the frequency of use. The licensee must ensure that the program of veterinary care is updated with current preventive practices to ensure that the capybaras are provided adequate veterinary care.

* The facility inspection and verbal exit briefing done on 3/6/14 and phone exit briefing done on 3/10/14 were conducted with the licensee.

* Copy of inspection report was sent by certified and regular mail.
