3.6(c)(2)

Primary enclosures.

Two dogs Daryl (MC#23935) and Max (MC#74040) had been in a fight the morning of the inspection. Neither dog was injured, but they were still housed together in the same enclosure. Dogs housed in the same enclosure must be compatible. Displays of aggression between co-housed dogs require appropriate intervention by the facility. These dogs must be separated and evaluated by the facility to determine their future disposition. This non-compliance was corrected during the inspection by separating the dogs.

This inspection and exit interview were conducted with facility representative.
