### 3.125(a)

#### Facilities, general.

One section of a fencing panel has become separated from the top portion of a vertical support beam. The facility representative stated the camel has been leaning over the fence in this area. Animal enclosures should be maintained in good repair and any areas of the fence that are not secured should be fastened to prevent injury to the animal.

The outdoor housing facilities shall be structurally sound and shall be maintained in good repair to protect the animals from injury and to contain the animals.

To be corrected by 2/3/2023

This inspection and exit interview were conducted with the facility representatives.
