3.11(c)

CLEANING, SANITIZATION, HOUSEKEEPING, AND PEST CONTROL.

*** Multiple whelping boxes were empty but had not been cleaned since the dogs were removed. There was a very strong ammonia odor in the whelping room and in the boxes due to this. These boxes need to be cleaned and sanitized in a timely manner after the dogs are removed to facilitate cleaning of the area and to promote good housekeeping practices. This needs to be addressed for the health of the remaining dogs in the whelping room.
