Customer ID: **506358**

Certificate: **58-C-1219**

Site: 001

Marineland Leisure Inc

Type: ROUTINE INSPECTION

Date: 03-JAN-2024

3.106(b)(3)

Water quality.

Upon review of the last year of water quality records, From November 21, 2023 - January 2, 2024 the coliform testing was performed every 2 weeks, not every week as required by the Animal Welfare Act. The facilities in-house testing kits were backordered and they were unable to get supplies to complete the required weekly testing. The facility must maintain water quality which is not detrimental to the health and well-being of the animals. Water samples must be taken and tested weekly for coliforms and records of all such test results must be made available for review by APHIS officials. Correct by January 17, 2024

This inspection and exit interview were conducted with facility representatives.
