Type: ROUTINE INSPECTION  
Date: 26-FEB-2018

### 2.40(b)(2)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

Male French bulldog ("Oscar", tag #31) has a large area of swelling on the right side of the face. Physical inspection of the dog revealed a firm mass located within the swollen area of the face. The licensee had not noticed the condition of the dog's face and the dog has not been evaluated by a licensed veterinarian. Facial swelling could cause pain and discomfort to the dog, as well as, indicate an underlying health condition.

This dog must be evaluated by a licensed veterinarian for a proper diagnosis and to establish an effective treatment plan. The licensee must ensure that all dogs receive adequate veterinary care at all times.

Correction date: End of business March 01, 2018

Inspection and exit interview conducted with Kelly Maxwell, ACI and the facility representative.
