

Inspection Report

SOUTHWEST BIO-LABS INC.

401 N 17th Street Suite 11
LAS CRUCES, NM 88005

Customer ID: **1077**

Certificate: **85-R-0029**

Site: 001

SOUTHWEST BIO-LABS, INC.

Type: ROUTINE INSPECTION

Date: 29-AUG-2024

2.31(e)(3)

Institutional Animal Care and Use Committee (IACUC).

The IACUC reviewed and approved Protocol 024-01979, which omitted pertinent details of a surgical procedure for placing subcutaneous implants. Omitted details included information such as preparation of implants and surgical sites, surgical site location and device placement, incision length and method of closure.

It is important that proposals to conduct animal activity contain enough detail for the IACUC to determine if the likelihood of pain or discomfort exists and to consider if/how pain and discomfort might be limited to that which is unavoidable for the conduct of scientifically valuable research. The registrant must ensure that all protocols reviewed by the IACUC contain a complete description of animal use, including details of any surgical procedures, in order to help anticipate and mitigate preventable pain or discomfort.

TO BE CORRECTED BY 09/05/2024

This inspection and exit interview were conducted with the registrant and the attending veterinarian.
