2.31(e)(2)

Institutional Animal Care and Use Committee (IACUC).

Protocol 2324-01 documents the number of dwarf hamsters necessary for use and the amount of animals that can be observed annually, but does not provide a specific rationale for the appropriateness of this number. Failure to provide rationale may compromise the ability of the IACUC to best assess the appropriateness of animal numbers. Proposals must include this rationale for IACUC review.

Correct by May 20, 2025.

This inspection and exit interview were conducted with a facility representative.
