Type: FOCUSED INSPECTION
Date: 01-FEB-2024

2.131(d)(2)

Handling of animals.

The public is able to walk directly up to the goats in the goat barn to pet or feed them. During the inspection, an attendant was not present at a sufficient frequency to effectively monitor the public's interactions with the goats. A responsible, knowledgeable, and readily identifiable employee or attendant must be present at all times during periods of public contact or a barrier must be provided with a sufficient distance between the animals and the public to minimize the risk of harm to the animals and to the public. Correct by 3/1/2024.

This inspection and exit interview were conducted with licensee and facility representatives.

This is a focused inspection to evaluate concerns in a complaint.
