Certificate: **58-R-0148**
Site: 001
Pensacola State College

Type: ROUTINE INSPECTION
Date: 25-AUG-2025

2.31(c)

Institutional Animal Care and Use Committee (IACUC).

The Institutional Animal Care and Use Committee (IACUC) is not conducting program and facility reviews at least once every six months. The most recent program and facility reviews were conducted on April 11, 2024, and March 27, 2025. This is an interval of almost twelve months.

Additionally, the IACUC has not submitted the reports for their program and facility reviews to the Institutional Official (IO) since July 13, 2023.

Conducting facility inspections less frequently than once every six months could delay the IACUC's detection and subsequent correction of any departures from Animal Welfare Act. Not sending the reports for program and facility reviews does not allow the IO to be made aware of any deficiencies and plans for correction. The IACUC, as an agent of the research facility, shall review, at least once every six months, the research facility's program for humane care and use of animals. The IACUC shall inspect, at least once every six months, all of the research facility's animal facilities, including animal study areas. After completing the program review and the inspection of the animal facilities, the IACUC must prepare reports of their evaluations, including minority opinions, that a majority of members must sign, and submit the reports to the Institutional Official.

To be corrected from this date, August 29, 2025, forward for all future program and facility reviews.

This inspection and exit interview were conducted with a facility representative.
