

## Inspection Report

---

Ervin, Betty and Gladys Plett  
367169 E 1063 Rd  
Boley, OK 74829

Customer ID: **6020404**  
Certificate: **73-A-2875**  
Site: 001  
Ervin Betty and Gladys Plett

Type: ROUTINE INSPECTION  
Date: 26-AUG-2025

---

### 3.158(d)

#### Cleaning, sanitization, housekeeping, and pest control.

- The licensee is using small containers of fly bait placed on top of nest boxes. He was unable to identify the specific compound being used, so it is unclear if this product is safe to use around birds. Regardless of the product, placing bins of the fly bait on top of bird housing is a potential source of contamination to the enclosed animals. Fly bait should be approved by the attending veterinarian, or be safe for birds and used per manufacturer recommendations. The licensee must identify the specific product being used and make sure that it is appropriate, or approved by the attending veterinarian. Licensee corrected the issue at the time of inspection by moving the containers to a safe location that does not potentially contaminate the birds.

Corrected at the time of inspection

This inspection and exit interview were conducted with licensee.
