Type: ROUTINE INSPECTION
Date: 31-OCT-2023

2.126(a)(2)

Access and inspection of records and property; submission of itineraries.

At the time of inspection an updated record of animals on hand, environmental enhancement program for birds, and records of acquisition for two spider monkeys and one racoon were not available for review by the inspector. Review of records required by the Animal Welfare Act facilitates the inspection process by allowing the inspector to determine compliance of documents and evaluate animal welfare. Records shall be developed, maintained on hand and made available for review by USDA Officials during inspection. Correction date: November 14, 2023.

Watering.

The enclosure containing four dromedary camels has a single water receptacle containing water that has become greenish brown and very cloudy, with insects and organic debris floating on the surface. Dirty water receptacles contaminate water and may lead to animal illness. Water receptacles must be kept clean and sanitary to provide water that is free from contamination. Correction date: November 3, 2023.

This inspection and exit interview were conducted with a facility representative.
