INSTITUTE FOR MARINE
MAMMAL STUDIES INC

Type: RE-LICENSE INSPECTION

Date: 12-DEC-2023

2.131(b)(1) Critical

Handling of animals.

Records show that on the morning of September 28, 2023 a white and blue budgie (ID: black band #206) was found dead entangled in a toy. Management stated that toys provided for budgies do not usually have strings attached. Birds who become entangled in toys or other items in their enclosure may suffer from stress, injury, or death. Correct by ensuring that toys and other items in the enclosure are safe for birds, and that handling of all animals is done as expeditiously and carefully as possible in a manner that does not cause trauma, overheating, excessive cooling, behavioral stress, physical harm, or unnecessary discomfort. To be corrected by: February 10th, 2024 or prior to the next licensing inspection, whichever comes first.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by February 10th, 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
