Contingency planning.

The facility has started writing a contingency plan but has not yet completed the plan. The plan as currently written does not outline the tasks required to be carried out in response to identified emergencies/disasters. Tasks to address in the plan include details such as steps to take to address the emergency, instructions for evacuation/moving animals or sheltering in place, and for addressing animal needs such as food/water, sanitation, ventilation, heating/cooler (especially for temperature sensitive species). A written detailed plan is necessary to prepare to address emergencies/disasters that may be most likely to be experienced. Correct by ensuring the written contingency plan includes an outline of the specific tasks required to be carried out in response to the identified emergencies/disasters. Correct by 10/15/22.

This inspection and exit interview were conducted with the licensees.
