Party Animals

Type: ROUTINE INSPECTION
Date: 16-MAY-2024

3.125(c)

Facilities, general.

Food supplies need to be stored adequately. Two open bags of dry feed (one bag of kangaroo feed and one bag of dog food) were stored in the barn. Flies were noted on the inside top of one of the open bags. Lettuce and carrots were stored on top of a lidded can in the same area and were not refrigerated. Temperatures later today are projected to be in the 80's.

Food needs to be stored adequately and perishable food needs to be refrigerated to protect the feed supplies from deterioration, molding and contamination by vermin. All supplies of food shall be stored in facilities which adequately protect such supplies. Correct by 5/18/24.

This inspection and exit interview were conducted with the licensee.
