Type: ROUTINE INSPECTION

Date: 22-NOV-2024

2.1(b)(2)(ii)

Requirements and application

Since the last inspection on 28 February 2024, the facility acquired and is exhibiting 4 red fox and 1 bat-eared fox. The licensee's existing license does not authorize the use of exotic and wild canids, such as foxes. Failure to obtain a license for dangerous animals like exotic and wild canids could negatively impact the welfare of the exhibited animals and the safety of the general public. A licensee must obtain a new license before using any animal beyond those types or numbers of animals authorized under the existing license.

Correct by 23 December 2024.

This inspection and exit interview were conducted with the facility representatives.
