### 3.127(b)

#### FACILITIES, OUTDOOR.

Along the back corners of the shelter for one adult camel named "Skittles" is large open gaps. The wall on the left side of the shelter is bending outward (warped). These large gaps on both sides allow the wind and rain to enter the shelter and does not adequately protect the animal from inclement weather. Provide natural or artificial shelter for all animals housed outdoors to afford protection and to prevent discomfort.

To be corrected by: March 29, 2017

This inspection and exit briefing were conducted in person with the licensee on 3/8/2017.
