Facilities, general.

***USDA observed a pile of old broken wood and wire in the old barn at the top of the hill on the safari that the safari animals have access to. The gate to one of the doors is falling off it's hinges and is partially covered with loose wire containing sharp points that may cause puncture wounds or other injury.

If this location is to remain accessible to the animals the debris shall be removed and the gate repaired or replaced. If the barn is no longer to be used the animals shall be prevented access to protect their health and well-being.

Correct by June 24, 2025.

This inspection and exit interview were conducted with the Manager.
