

Inspection Report

Tennessee Department of Environment and Conservation
500 James Robertson Pkwy 8th Floor
Nashville, TN 37243

Customer ID: **6020556**

Certificate: **63-C-0314**

Site: 014

Mousetail Landing State Park

Type: ROUTINE INSPECTION

Date: 05-DEC-2024

3.153(a)(2)

Primary enclosures.

The perches in the barred owl and red-tailed hawk enclosures are in need of repair. The wooden perches are covered with wrapped rope. The rope in both enclosures has come loose and partially unwrapped with loose dangling strands and fraying rope. One loose rope forms a dangling ring in the hawk enclosure. The loose rope could become harmful to or entrap the birds or lead to foot problems.

Objects such as perches that enrich a bird's environment must be designed, constructed and maintained so as to prevent harm to the bird. Correct by 12/20/24.

This inspection and exit interview were conducted with facility representatives.
