Customer ID: **326708**

Certificate: **47-C-0053**

Site: 001

Riverside Zoological Foundation

Type: ROUTINE INSPECTION

Date: 01-OCT-2014

3.75(c)(1)(2)

HOUSING FACILITIES, GENERAL.

Sharp points or edges

Inside a female black handed Spider monkeys indoor enclosure there are sharp points and/or edges . There is an opening in the wire fence, large enough for the monkey to stick her hands through. This opening has sharp points from the cut section of the wire. There is a piece of twisted wire, used to secure the wire fencing, with the pointed ends pointing inward into the enclosure. There is a metal strap on the resting platform that has become unattached and has created a sharp point and edge. These sharp points and edges could cause injury to the animal. The licensee must repair, remove or replace these items and ensure that all enclosures are free of sharp points or edges that may injure the animals.

To be corrected by: 3 Oct 14.

Inspection conducted with a facility representative on 1 Oct 14. A verbal exit interview was conducted with a facility representative on 2 Oct 14.

Prepared By: STEPHANIE OSBORNE, A C I USDA, APHIS, Animal Care
