

Inspection Report

High Desert Museum
59800 S. Hwy 97
Bend, OR 97702

Customer ID: **3466**
Certificate: **92-C-0170**
Site: 001
High Desert Museum

Type: RE-LICENSE INSPECTION
Date: 02-OCT-2024

3.153(a)(1)(i)

Primary enclosures.

The base of the metal siding separating the enclosed shelter from the flight pen for the common raven, "Sydney", is significantly rusted. The rusted metal has holes with jagged edges and sharp points accessible to the raven's head or a limb. Sharp edges and holes of this size affect animal welfare because the birds head or limb could be ensnared with resulting injury to the raven. The facility must ensure that all primary enclosures be constructed and maintained so that they have no sharp edges that could injure the birds in the enclosure.
Correct by next re-license inspection.

This is a 1st Re-License Inspection for a Class "C" license. The inspection and exit briefing were conducted with the applicant.

All items must be in compliance within 2 more inspections or by December 1, 2024 or the applicant will forfeit the license fee and must wait 6 months to reapply. Please contact your inspector to schedule your next Re-License Inspection.

Regulated activity can continue under your existing USDA license until it expires.
