Type: ROUTINE INSPECTION
Date: 29-JUL-2014

3.127(d) REPEAT

FACILITIES, OUTDOOR.

A pen holding camels is not enclosed by a perimeter fence. All enclosures housing camels should have a secondary containment that is a minimum of 6 feet in height and at least 3 feet in distance from the primary enclosure. The fence must be constructed so that it protects the animals in the facility by restricting animals and unauthorized persons from going through it or under it and having contact with the animals in the facility.

Original correction date: June 30, 2014

This was a focused inspection of the perimeter fence.

An exit briefing was conducted with the owner.
