

## Inspection Report

Norris Welch  
P. O. Box 2400  
Fulton, TX 78358

Customer ID: 5129  
Certificate: 74-C-0295  
Site: TRA  
Norris Welch

Type: ROUTINE INSPECTION  
Date: 08-OCT-2014

### 2.40(a)(1)

#### ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

The written Program of Veterinary Care is incomplete, not providing enough details. Sections to describe parasite control and emergency care are blank. The euthanasia section just states "injection". The attending veterinarian has not signed off on the program in over a year. More details of the veterinary care to be provided the two capuchins needs to be provided. To be corrected by 11-8-14.

### 2.78(a)

#### HEALTH CERTIFICATION AND IDENTIFICATION.

This exhibitor is traveling without a valid current health certificate for the two capuchin monkeys in his possession. Health certificates are required to show the animals are apparently free of any infectious diseases or physical abnormalities which would endanger the animals or the public. To be corrected before further travel.

### 3.76(b)

#### INDOOR HOUSING FACILITIES.

The two capuchins live in a camper truck with only one window and no working air conditioning. During this inspection, the box fan in the window was off and was not plugged in. A wall thermometer in the camper indicated 90 degrees Fahrenheit. This inspection was conducted in the evening as the sun was setting. Although the capuchin who was in the camper at the time of the inspection did not appear to be affected adversely by the heat, ventilation is required when ambient temperatures are over 85 degrees Fahrenheit. The fan was plugged in and turned on during this inspection. To be corrected from this day on.

Inspection conducted at the Interstate Fair in Spartanburg, South Carolina.  
Exit briefing conducted with licensee.
