2.40(a)(1)

ATTENDING VETERINARIAN AND ADEQUATE VETERINARY CARE (DEALERS AND EXHIBITORS).

On the previous inspection the licensee was informed to have the attending veterinarian list the the dosages & route of administrations for: parasite control, euthanasia, chemical restraint, & vaccinations on the Program of Veterinary Care. This has not been done.

The Program of Veterinary care shall include this information.

3.125(a)

FACILITIES, GENERAL.

The licensee has constructed new shelters in the goat & sheep pens. These two shelters are slightly elevated off the ground leaving a small gap between the ground and the shelter. This space, however, is sufficient to possibly allow a newborn or small animal to get under it and get out of the enclosure, or get entrapped within that space.

This space shall be corrected to prevent any size animal from possibly inuring itself or getting out of their enclosure.
